

Mass Evacuation Cycle

Albrecht A. Beck
Prepared International (PPI)

Status of Mass Evacuation Planning

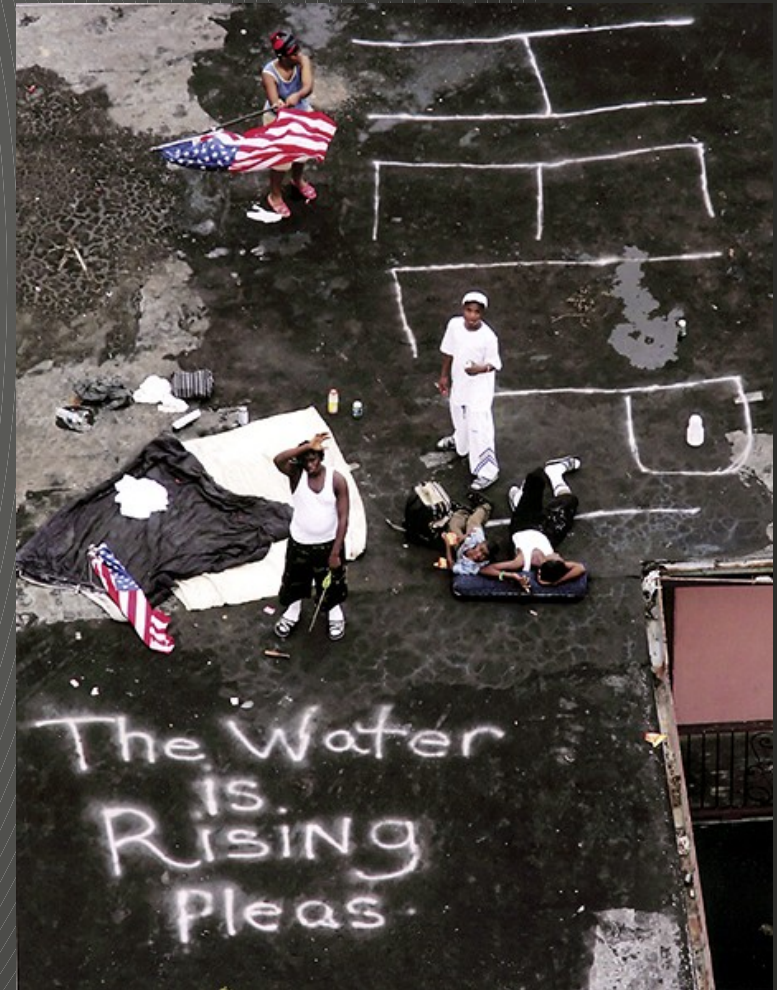

How well is your state / region prepared for mass evacuations?
What procedures and plans are in place?

Discuss in your group for 15 min

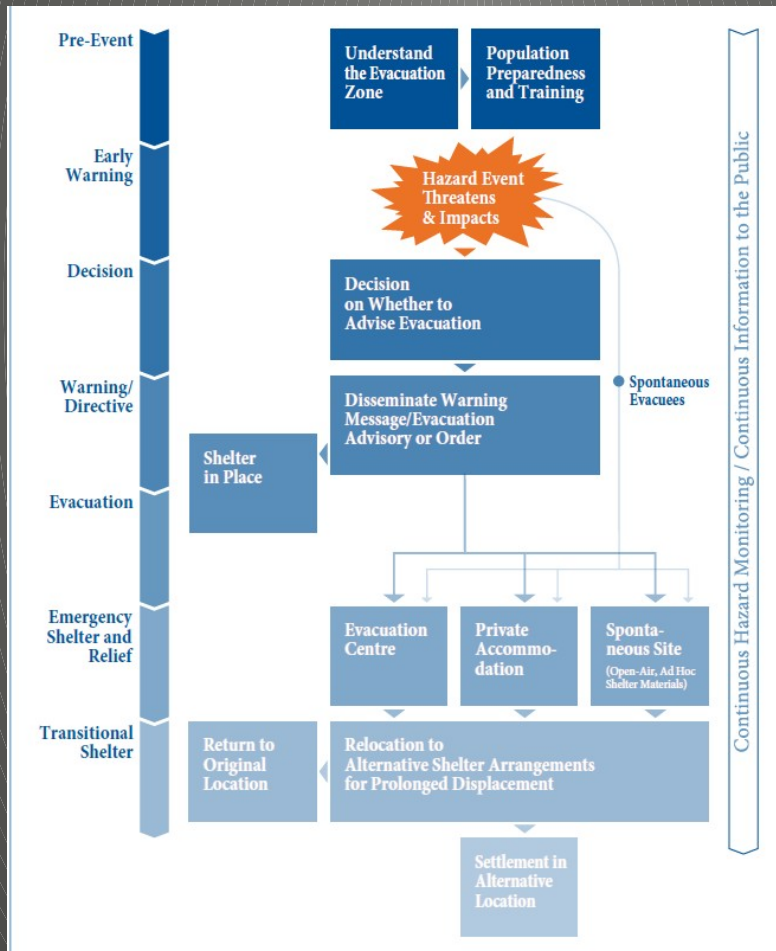

Mass Evacuation Cycle

- Why are we talking about a mass evacuation cycle?
- And how many different steps of such an cycle can you identify ?

Evacuation Phases

- Pre-event
- Early Warning
- Decision
- Warning/Directive
- Evacuation
- Emergency Shelter and Relief
- Return or relocation / recovery

Pre-Planning Considerations

Cross Cutting Issues (legal framework, roles and responsibilities, protection, synergy across authorities)

Understanding the Evacuation Zone (community analysis, risk assessments, security concerns, timing models)

Early Warning – Decision – Directive

Somewhere between these
three steps it normally goes
wrong...

Evacuation itself

Camp Phase
comes next....
